SERVING THOSE WHO SERVE US

We take pride in serving the men and women who serve our country, and it shows. Our convenient program gives military personnel and working adults the opportunity to prepare for career transitions and advancement while fulfilling other obligations.

Southern Illinois University Carbondale and Orange Coast College are perfect partners for active duty, aviation industry and VA eligible veterans.

FOLLOW YOUR CAREER PATH

SIU's renowned aviation management program builds on aviation skills you already have, taking the technical training you receive and expanding it into a career-oriented degree.

Graduates of SIU Carbondale's Aviation Management program include professional pilots, NTSB investigators, airport directors, managers, consultants, FAA safety inspectors and aircraft product support personnel, and Air Traffic Controllers.

THE PARTS

The Aviation Management degree program consists of three parts:

- A 48-semester-hour major with courses taught in a weekend format that spans four semesters and can be completed in 16 months.
- A 34-42-semester-hour approved career electives requirement that can be satisfied through previously completed military schools, OCC and other community college degree programs, other technical or industry training programs, FAA Certificates or aviation-related work experience.
- A 30-38-semester-hour University Core Curriculum (UCC) requirement that can be satisfied by transfer credit from other accredited institutions, including OCC and other community colleges, CLEP, DANTES and proficiency training.
